PROJECTS

MC Complaint App | *React Native, Expo, TypeScript, Firebase* | [GitHub](#)

2024

- Developed a municipal corporation complaint app enabling citizens, department heads, and employees to file and track issues such as garbage, roads, and water supply
- Implemented role-based UI for citizens, employees, and admins with comprehensive access control
- Integrated image uploads and real-time complaint tracking system

AegisAI – AI-Powered Real-time Civic Engagement Platform | *React Native, AI, Blockchain* | [GitHub](#)

2025

- Built a revolutionary real-time civic engagement platform combining AI-powered issue categorization, democratic DAO governance, and blockchain-based reputation systems
- Implemented real-time chat with WebSocket connections, live voting for DAO proposals, and dynamic dashboards for community analytics
- Integrated Google Gemini AI for instant complaint classification and smart priority-based notifications
- Created transparent, efficient, and participatory digital democracy platform with live real-time engagement

News App – AI-Powered News Companion | *React Native, Expo, Firebase, Google Gemini AI* | [GitHub](#)

2025

- Developed a modern React Native news application featuring real-time news delivery and AI-powered assistance with Firebase authentication
- Integrated Google's Gemini AI for intelligent news queries and implemented smart search with advanced filtering
- Built personalized feed system with category browsing, offline reading capabilities, and cross-platform support
- Designed beautiful UI with dark/light theme support and optimized performance for smooth navigation

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, Java

Mobile Development: React Native, React Native Expo, NativeWind, Flutter

Web Development: React, Next.js

Databases/Backend: Firebase, Node.js, Supabase, MongoDB, Express

Design Tools: UI/UX Design, Graphic Design, Adobe Creative Suite, Figma
